What is Fun Day?

A day where students can relax from all of the stress they get at school and learn more about things that they don't normally learn about at school

Why do students need Fun Day?

Use Case

- Katie
- Loves painting
- Spends all of her time studying
- Doesn't have the chance to paint

How Fun Day Works

- One day twice a month where students can choose what they want to learn about and participate in lessons on the subject the whole day
- Currently there are no other solutions to this problem that are included in school

Challenges

- Getting permission from the Principal of the school
- Finding teachers who are able to teach the different subjects
- Parents may think that it is better for their kids to learn about regular school subjects and not about arts and sports
- Organizing all of the different activities
